

Adagio Afternoon for First Nations

Adagio Afternoon for First Nations is your chance to see whether Adagio Accounting is suitable for your organization.

Adagio is the First Choice of First Nations

Over 200 First Nations currently use Adagio by Softrak. If you're not using Adagio Accounting, do you fit in one of these categories?

- Still using the discontinued **ACCPAC Plus**
- Moved to **Sage Accpac ERP** but spending too much of your organization's time or money to keep it running
- Outgrowing **Simply** or **QuickBooks**
- Having trouble getting support for the accounting software you currently use.

Your organization probably runs many different programs in health, education, heritage, social services, housing and more. With Adagio Ledger's superb Financial Reporter, the financial officer can produce exactly the reports needed to manage these programs effectively. In addition, Adagio GridView can put a read-only reporting tool on any desk where someone needs access to the accounting data in real time.

If your organization moved to Sage Accpac ERP, you're probably realizing that the cost of annual maintenance is high. You can simplify your accounting procedures and save money each year by moving to Adagio.

Of course, Adagio Accounting can be an excellent solution for many of the businesses run by First Nations. Adagio can work effectively for everything from sawmills to day-care centres. Many First Nations organizations run specialized programs developed for their needs. Often, these programs will export data to the accounting system. Adagio's importing features are flexible and easily set up to handle many file formats.

Registration & Lunch - noon

Come at noon to register and join Adagio clients and your host for lunch. The Adagio users will have attended lecture training in the morning and will be eager to tell you all about their experiences with Adagio.

Afternoon Events

You'll see how Adagio modules and Third Party products can be combined to provide a powerful, economical and flexible solution to the problems you face, whether it's **cost control**, **payroll**, **asset management** or **social assistance**. We'll show you how:

- [Adagio Receivables](#) and [Adagio Purchase Orders](#) can manage housing, grants and costs
- CRW Systems' [Social Allowance System](#), [Medical Transportation System](#), [Housing System](#) are designed specifically for First Nations.
- QLab's [PayDirt PR](#) and [PayDirt SA](#) simplify departmentalized payroll and social assistance reporting
- TranZtec's [PrePaid MasterCard](#) removes the nightmare of handling cash and cheques
- Telpay's [electronic payments](#) moves funds directly to vendors or employee bank accounts
- SRSof's [Fixed Assets for Adagio](#) provides accounting for tangible capital assets and manages associated documents

We'll end the day chatting with representatives from each company to discuss how to make their solution work for you!

Find out how Adagio's keyboard shortcuts can speed data entry. An Adagio unMouse pad is included in your training materials to take back as a memory aid.

Contact Your Host

Choose your day, location, and host from the table below and contact your host to register. This event is free for prospects of Adagio Accounting – **free lunch** and free afternoon events.
