Solutions at the Adagio Opportunity Conference

We’ve just returned from the three day [Adagio Opportunity Conference](#) on the North Shore of Vancouver. Softrak Systems showed many specialized solutions and so did the Adagio Developer Partners. A sampling of these solutions is shown below.

Solutions from Softrak Systems

- [Adagio DataCare](#) – This utility program can check the integrity of your accounting data after-hours, when no one is using Adagio. If you’re on the [Combined Support Plan](#) with AccSys Solutions, if there’s an error in your data, we’ll be notified by email immediately.
- [Adagio BankRec](#) – read all about this bank reconciliation module in [The Score newsletter](#). Reconcile your bank(s) in just minutes per month.
- [Adagio GridView](#) – the more modules you have, the more you’ll like GridView. Filter, sort, and view records from any company database, then export to Excel.
- [Adagio ePrint](#) – save time, save space, save trees. Get started on a paperless office.

For more info or to schedule a demo, phone 1-888-534-4344 x231 or send an email to service@accsysolutions.com.

Solutions from Adagio Developer Partners

- [Toolkit for Adagio](#) is said to be the most valuable Third Party module for Adagio users. Clean up your database with “change to”, “combine into” and “copy to” functions. There’s no better way to organize your data.
- [Fixed Assets for Adagio](#) replaces and automates tracking with spreadsheets. All organizations can benefit, but Canadian schools, hospitals, and First Nations need this module to comply with new legislation.
- First Nations should also look at [PayDirt Social Allowance](#) from QLab Systems.

For more info or to schedule a demo, phone 1-888-534-4344 x231 or send an email to service@accsysolutions.com.

Today’s Tip – Keyboard Shortcuts

Use these keyboard shortcuts in any Adagio module so you can enter data faster. Click [Common Features - Keyboard Shortcuts](#) and then **Don’t Use that Mouse!**

- Navigate within a form
- Click buttons from the keyboard
- Switch between tabs, forms and applications
- Cut, Copy, and Paste
- Click [Keyboard Shortcuts for Adagio](#) for a full list
- Reply to this newsletter for a laminated copy in the mail. Be sure to tell us how many you need for all your co-workers, too.
