2012 – Issue #7

Get the most from your Adagio accounting with these solutions. To unsubscribe, put "Remove" in the Subject line.

## Electronic Payment Solutions

Adagio users can make payments electronically in two different ways:

- Telpay, a third party provider
- Adagio EFT, an Adagio module that AccSys Solutions can provide for you.

Telpay is already set up in your Adagio Payables for you. Click on [Eliminate Cheques Today](#) for a video to learn about Telpay and then click [Sign Up Now](#) to get started with their service. Both AccSys Solutions and Softrak Systems use Telpay for all their payments: payables, payroll, and expense claims. When you're set up with Telpay, call the AccSys Customer Service Team for a consulting appointment to learn all the Best Practices for EFT with Telpay.

If you'd rather have complete control and responsibility over your electronic payments, you'll want [Adagio EFT](#), instead. Adagio EFT already works with most Canadian banks. If your bank isn't listed, it can be added at no extra cost.

## Social Media for Adagio Clients

Would you like to use social media to discuss special solutions for your business? AccSys is trying an experiment to give Adagio clients more access to solutions using LinkedIn.

We've set up a LinkedIn corporate account and a group for AccSys Solutions' "solutions". Please [follow us at AccSys Solutions](#) and [join our group](#). If you don't have a LinkedIn account, it's easy and free to [register](#).

## Today's Tip – Links in Solutions Newsletter

The top right hand corner of each Solutions Newsletter has handy links to the web.

Free Support

Search or post on the Tech Support Forum

Free Training

There are over 40 five minute recorded videos and over 40 hour long videos on all subjects.

Solutions

This is the library of the Solutions newsletters (like this one)

Consulting

Use a consultant to make your next major step forward. This can be a "game changer".

Events

Adagio Boot Camps, Workshops, Academies, and Conferences show up here first.
