PayDirt Payroll

Designed for Adagio®

PayDirt Payroll© makes complex payrolls easy! It is an affordable Canadian 🇨🇦 payroll solution designed specifically to integrate with your accounting software.

PayDirt Payroll is the best payroll solution for businesses that require a breakdown of wage and benefit expenses to multiple accounts, projects or departments, or that have union-style payrolls with numerous benefits and deductions.

You should consider PayDirt Payroll if you are using spreadsheets to calculate difficult benefits or deductions and then entering them manually into payroll, but would love to have the payroll program do it all automatically using its own spreadsheet-style formulas. PayDirt Payroll lets you create complicated paycode formulas (including the use of If, Min, Max, and logical operators), provides complete control over all payroll calculations and effortless override of each calculated amount, includes Direct Deposit, LaserROEs, ROEWeb, continuous year after year payroll history, unlimited paycodes, and much, much more.

- ◆ Drastically reduces the amount of work required to run payroll each week
- ◆ Calculates difficult benefits automatically, eliminating spreadsheet work
- ◆ Tracks accruals in dollar amounts, in hours, or in days
- ◆ Offers fast and simple timesheet entry using a spreadsheet grid
- ◆ Automatically distributes all payroll costs, including each wage and benefit expense, to the desired department
- ◆ Prepares ROEs automatically for direct government submission and prints the ROEs to laser printers
- ◆ Handles direct deposit
- ◆ Lets you change and reprint one paycheque "on-the-fly" without re-doing the entire payroll
- ◆ Lets you split payroll expenses between two months, based on the number of days worked in each month
- ◆ Reverses paycheques in a snap
- ◆ Lets you view multiple years of payroll history at one time, and report on multiple years together
- ◆ Handles payroll advances and declining-balance employee loans
- ◆ Tracks HR history and employee information, and will remind you of important dates
- ◆ Handles daily time entry, multi-user access, and job costing of payroll expenses
- ◆ Drills down into an employee record to see previous pay details
- ◆ Build your own formulas for calculating benefits and accruals using the built-in formula builder
- ◆ Lets you override any calculated payroll amount
- ◆ Offers instant vacation time balances at any time
- ◆ Allows mass changes to employee settings, rates, and all other payroll data
- ◆ Complete support available during setup and conversion, including training and assistance with your first payruns
- ◆ Integrates seamlessly with Adagio® Accounting, ACCPAC™ and other popular accounting programs

PayDirt Payroll Makes Complex Payrolls Easy!

Entering regular hours, overtime hours, and double time hours directly into PayDirt's spreadsheet-like grids makes payroll processing faster and easier. Let PayDirt Payroll calculate all of the other values automatically. Rates and accounting can be easily changed on any line because all values in the grid can be modified.

Pressing <F8> lets you preview or print the journal entry that will be produced from this paycard. Here, the breakdown of wage expenses is based on the employee time entered, while several benefit expenses (Dental, CPP, EI, and WCB) are distributed automatically, based on the wage's split by department.

Eliminate all of your manual spreadsheets! Reduce the calculation of different benefits, accruals and deductions to a simple spreadsheet-like formula. PayDirt Payroll calculates the results automatically, whether you reference dollar amounts or hours worked. In this example, the employee will bank sick time in hours at a rate of 4.62% of time worked in the current period, to a maximum of 4.0 hours per pay period.
